Summary

Dynamic Web Developer with hands-on experience at CODESOFT, specializing in responsive design and interactive user interfaces. Proficient in HTML5, CSS3, and JavaScript, I excel in Git collaboration and REST API integration. Strong problem-solving skills enhance my ability to deliver impactful web solutions that elevate user experiences.

Experience

CODESOFT - Web Developer INDIA 06/2025 - Current

- Developed and maintained responsive websites using HTML, CSS, and JavaScript.
- Built interactive user interfaces and web components to improve the user experience.
- Collaborated on front-end and back-end integration tasks using Git and GitHub.
- Completed hands-on projects, like portfolio websites, landing pages, and dashboard UIs.
- Gained real-world exposure to web development practices and project workflows.

Padhee Tutorial - IT Support Intern (Part-Time) 04/2022 - 06/2024

- Assisted users in resolving hardware/software issues and network connectivity problems.
- Handled support via phone, email, and chat, enhancing communication and tech resolution skills.
- Gained exposure to common system troubleshooting tools and end-user environments.

Projects

● AgriPredict – Smart Agriculture Web App

agri-predict-two.vercel.app
Built for a hackathon, this app uses AI to predict crop health and provides agricultural insights to farmers.

● Dentelo – Dental Clinic Website

tilakdalai.github.io/dentelo
A modern and responsive static website for a dental clinic, showcasing services, team, and contact form.

● Smart Calculator

tilakdalai.github.io/calculator
A clean, responsive calculator built using HTML, CSS, and JavaScript for basic arithmetic operations.

● Banking Web Interface

banking-web-lovat.vercel.app
Simulated banking dashboard with UI components for account details, transactions, and responsive design.
